SUMMARY

Full-Stack Developer specializing in MERN stack development, real-time web applications, and AI-based solutions. Built multiple scalable projects including live tracking systems and personalized learning platforms.

PROFESSIONAL EXPERIENCE

- MERN Stack Intern — [Glitchover]

6 Months (JUNE-DECEMBER-2025)
- Worked as a **MERN Stack Developer** building scalable features using MongoDB, Express.js, React.js, and Node.js.
 - Implemented **JWT authentication** and **real-time updates** using **Socket.io**.
 - Developed an **Influencer Analytics Dashboard** and a **Blog CMS** with SEO optimization.
 - Integrated **OBS streaming links** and automated link generation.

TECHNICAL SKILLS

Frontend:	Backend & DB:	Tools:
■ React.js, REDUX, JavaScript, Tailwind	■ Node.js, Express.js, Socket.io	■ Git, GitHub, VS Code
■ HTML5, CSS3, GSAP, PYTHON	■ MongoDB, Mongoose, JWT Auth	■ Thunder Client, Postman, Render

KEY PROJECTS

- **SkillOrbit**– AI-Powered Learning Platform
 - Built an **AI roadmap generator** to create customized learning paths based on user goals and skill level.
 - Implemented **task tracking, weekly missions, and progress system** to improve learning consistency.
 - Integrated an **AI Assistant** for guidance, doubt solving, and learning support.
 - **1st Place Winner – Avishkar 2.0 (SOCCA Level).**[GitHub](#) | [Live Demo](#) | [MERN](#)
- **Real-Time Bus Tracking System** – A full-stack solution for live fleet monitoring.
 - Integrated **Leaflet.js/Google Maps API** for dynamic map visualization and also **PWA** version.
 - Utilized **Socket.io** to deliver low-latency live location updates across **User, Driver, and Admin dashboards**.[GitHub](#) | [Live Demo](#) | [MERN](#)
- **Animated Website Clone** – A modern animated website inspired by the K-72 design.
 - Built smooth **GSAP-based animations** and **scroll-triggered effects** for interactive user experience.
 - Developed using **React component architecture** with fully responsive layouts for all devices.[GitHub](#) | [Live Demo](#) | [React](#) • [GSAP](#) • [CSS](#)
